- Worked with the team on various aspects of software development and project management.

PROJECTS

ERP Software Project at Datum Innovation

ERP Solution for Manufacturing Firm

The ERP software project at Datum Innovation was designed to develop a comprehensive ERP solution for a large manufacturing firm. The goal was to integrate various business functions into a unified system to improve operational efficiency, reduce manual processes, and provide real-time data insights.

Learning Management System (LMS) Project at MajorWit

- The LMS project at MajorWit involved developing a robust Learning Management System tailored for an educational institution. The system was designed to deliver, manage, and track educational content and activities, facilitating online learning and improving student engagement.
